SUBJECT INDEX*

A

Acidosis as cause of renal shutdown during extracorporeal circulation: its correction by use of THAM (Connolly et al.), 680

Acquired aortic stenosis, surgical treatment of (Mulder et al.), 468

Adenomas of trachea and bronchus in general hospital, continuing clinical survey of (Wilkins et al.), 279

Adhesive, plastic, use in pulmonary surgery (Wilder et al.), 576

Age of seventy, thoracotomy in patients over (Heilbrunn and Hardin), 13

Agenesis of left hemidiaphragm (Benjamin), 265

Air embolism through pressure-perfusion cannula, danger of (Baird and Miyagishima), 212
small amounts, in coronary circulation, early and late effects on heart of (Goldfarb and Bahnson), 368

Airway collapsibility, major, in pathogenesis of obstructive emphysema (Rainer et al.), 559

American Association for Thoracic Surgery: List of officers, councilors, and members, 125, 277, 417, 717, 557
Meeting notes of the Forty-Third Annual Meeting, 140

Anastomoses, end-to-end, bypass venous grafts, and longitudinal arteriotomies, observations of: experimental coronary artery surgery (Sauvage et al.), 826

Anastomosis, superior vena cava-pulmonary artery, importance of azygos vein in (Edwards and Bargeron), 811
use of intraluminal shunt during (Luna and Wilson), 191

Aneurysm(s), dissecting, of aorta with cardiac tamponade, surgical treatment of (Rohman et al.), 498
of subclavian artery associated with contiguous pulmonary tuberculosis (Hara and Bransford), 256
ventricular, right (Stansel et al.), 66

Announcement: Board of Thoracic Surgery, 558, 718

Aorta, dissecting aneurysms of, surgical treatment with cardiac tamponade (Rohman et al.), 498

Aortic stenosis, acquired, surgical treatment of (Mulder et al.), 468
congenital (Pate et al.), 174
valve, total prosthetic reconstruction of (McGoon and Moffitt), 162

Arteriography, coronary, inflow occlusion for (Templeton et al.), 818

Arteriotomies, longitudinal, end-to-end anastomoses, and bypass venous grafts, observations of: experimental coronary artery surgery (Sauvage et al.), 826

Artery, coronary, ligated, effect of aorta-to-left atrium shunts in dogs with (Moulopoulos et al.), 408

Atrial septal defect, creation of, for transposition of great vessels, sequential banding and (Glotzer, et al.), 104
new technique for creation of (Schuster et al.), 510
enlargement of (Sautter), 386
volume, effect on cardiac output of reduction in (Trusler), 109

Autotransplantation and homotransplantation of lung (Hardy, Eraslan, and Dalton), 606

Azygos vein in superior vena cava-pulmonary artery anastomosis, importance of (Edwards and Bargeron), 811

B

Banding, sequential, and creation of atrial septal defect for transposition of great vessels (Glotzer et al.), 104

Blood flow, coronary, in intact conscious dog: studies with miniature electromagnetic flow transducers (Hepps et al.), 783
regional, measurement of (Schenk et al.), 50
homologous, erythrocyte volumes after perfusion with (Theye and Kirklin), 57
saturated or unsaturated, or colloidal isotonic solutions, effects on cardiac function during direct prefusion of normal or ischemic ventricular myocardium with (Petropoulos), 94

Bronchial stump, healing after pulmonary resection (Smith et al.), 548

*July, pp. 1-140; August, pp. 141-278; September, pp. 279-418; October, pp. 419-558; November, pp. 559-718; December, pp. 719-854.

Bronchoesophageal fistula, palliative treatment of (Kovarik), 252
Bronchogenic carcinoma "locally cured" by preoperative irradiation, follow-up in patients with (Baker et al.), 298
pre-resection radiation for (Faber et al.), 227
Bronchus and trachea, continuing clinical survey of adenomas of (Wilkins et al.), 279
Burns, cardiac, and the defibrillator (Rivkin), 755

Cannula, pressure-perfusion, danger of air embolism through (Baird and Miyagishima), 212
Carcinoma, bronchogenic, "locally cured" by preoperative irradiation, follow-up in patients with (Baker et al.), 298
pre-resection radiation for (Faber et al.), 227
endobronchial, polypoid, with repeated expectoration of tumor components (Kern and Jones), 393
of esophagus and cardia, surgical treatment of (Logan), 150
primary, of lung: experience with 1,312 patients (Barrett et al.), 292
Cardia and esophagus, surgical treatment of carcinoma of (Logan), 150
Cardiac function during direct perfusion of normal or ischemic ventricular myocardium with saturated or unsaturated blood or colloidal isotonic solutions, effects on (Petropoulos), 94
output, effect on, of reduction in atrial volume (Trusler et al.), 109
simulator for evaluation of heart-valve prosthesis, design and development of (Starkey et al.), 207
tamponade, surgical treatment of dissecting aneurysms of aorta with (Rohman et al.), 498
Cardiopulmonary function in dogs living one and one-half years on only a reimplanted right lung, physiologic alterations of (Nigro et al.), 598
Cardiotomy with use of cardiopulmonary bypass, fat embolization with (Caguin and Carter), 665
Chest wall, surgical treatment of desmoid tumor of (Weinstein et al.), 242

heart disease, cyanotic, feasibility of hypothermic perfusion under hyperbaric conditions in surgical management of infants with (Bernhard et al.), 651
Coronary artery, ligated, effect of aorta-to-left atrium shunts in dogs with (Moulopoulos et al.), 408
surgery, experimental: observations of bypass venous grafts, longitudinal arteriotomies, and end-to-end anastomoses (Sauvage et al.), 826
blood flow in intact conscious dog: studies with miniature electromagnetic flow transducers (Hepps et al.), 783
circulation, early and late effects on heart of small amounts of air in (Goldfarb and Bahnson), 368
Cosmetic incision for open-heart surgery (Silver et al.), 197
Creation of atrial septal defect with clinical application, new technique for (Schuster et al.), 510
for transposition of great vessels, sequential banding and (Glotzer et al.), 104
Cyanotic heart disease, congenital, feasibility of hypothermic perfusion under hyperbaric conditions in surgical management of infants with (Bernhard et al.), 651

D

Defibrillator and cardiac burns (Rivkin), 755
Desmoid tumor of chest wall, surgical treatment of (Weinstein et al.), 242
Dilatation, transventricular, for mitral stenosis, traumatic mitral insufficiency following (Björk and Malers), 84
Dissecting aneurysms of aorta with cardiac tamponade, surgical treatment of (Rohman et al.), 498
Diverticulum, epiphrenic, spontaneous rupture of esophagus associated with (Yeh and Humphries), 271
Duct, thoracic, evaluation of functional anatomy by lymphangiography (Pomerantz et al.), 568
Dysplasia, chondroectodermal (Ellis-Van Creveld syndrome) with bronchial malformation and neonatal tension lobar emphysema (Moore), 1

E

Electromagnetic flow transducers, miniature, studies with: coronary blood flow in intact conscious dog (Hepps et al.), 783

Ellis-Van Creveld syndrome (chondroectodermal dysplasia) with bronchial malformation and neonatal tension lobar emphysema (Moore), 1

Embolism, air, through pressure-perfusion cannula, danger of (Baird and Miyagishima), 212

Embolization, fat, with cardiotomy with use of cardiopulmonary bypass (Caguin and Carter), 665

Emphysema, lobar, tension, neonatal, chondroectodermal dysplasia with bronchial malformation and (Moore), 1
obstructive, major airway collapsibility in pathogenesis of (Rainer et al.), 559

Endobronchial carcinoma, polypoid, with repeated expectoration of tumor components (Kern and Jones), 393

Enlargement of atrial septal defect (Sautter), 386

Erythrocyte volumes after perfusion with homologous blood (Theye and Kirklin), 57

Esophageal clamp, new (Hurwitz), 276

Esophagus and cardia, surgical treatment of carcinoma of (Logan), 150
in children, colon replacement of (Hopkins and Zwiren), 346
spontaneous rupture of, associated with epiphrenic diverticulum (Yeh and Humphries), 271

Expectoration, repeated, of tumor components, polypoid endobronchial carcinoma with (Kern and Jones), 393

Extracorporeal circulation, combined gas and heat exchange in (Smyth and Blades), 629
experimental study of L-norepinephrine in (Hohf et al.), 359
with use of rotating-disc oxygenator, hemodilution studies in (Kahn et al.), 765

F

Fallot's tetralogy in infancy, closed pulmonary valvotomy for relief of (Taylor et al.), 77
surgical treatment of: experience with indirect and direct techniques (Hallman and Cooley), 419

Fat embolization with cardiotomy with use of cardiopulmonary bypass (Caguin and Carter), 665

Fibrinolysis occurring during open-heart operations, hemorrhage due to (Tice et al.), 673

Fistula, bronchoesophageal, palliative treatment of (Kovarik), 252

G

Gas and heat exchange, combined, in extracorporeal circulation (Smyth and Blades), 629

Grafts, venous, bypass, longitudinal arteriotomies, and end-to-end anastomoses: observations of experimental coronary artery surgery (Sauvage et al.), 826

H

Healing of bronchial stump after pulmonary resection (Smith et al.), 548

Heart block, complete, experimental, in dogs, failure of sino-atrial nodal transplantation in treatment of (Starzl et al.), 201
implantable synchronous pacer in treatment of (Center et al.), 744
postsurgical, complete: with particular reference to prognosis, management, and new P-wave pacemaker (Lillehei et al.), 436
early and late effects of small amounts of air in coronary circulation on (Goldfarb and Bahnson), 368
orthotopic homotransplants of, in animals treated with Methotrexate, prolonged survival of (Blumenstock et al.), 616
right ventricle, hydatid cyst of (Di Bello et al.), 522
valves, prosthetic, sutureless (Magovern and Cromie), 726
technique for study of (Wood et al.), 379

Heart-valve prosthesis, design and development of cardiac simulator for evaluation of (Starkey et al.), 207

Heat and gas exhange, combined, in extracorporeal circulation (Smyth and Blades), 629

Hematocrit, postperfusion (Gadboys and Litwak), 772

Hemidiaphragm, left, agenesis of (Benjamin), 265

Hemodilution studies in extracorporeal circulation with use of rotating-disc oxygenator (Kahn et al.), 765

Hemorrhage due to fibrinolysis occurring during open-heart operations (Tice et al.), 673

Homotransplantation of lung, autotransplantation and (Hardy, Eraslan, and Dalton), 606

Homotransplants, orthotopic, of heart in animals treated with Methotrexate, prolonged survival of (Blumenstock et al.), 616

Honored guest's address: Surgical treatment of carcinoma of esophagus and cardia (Logan), 150

Humidification, adequate, with mechanical respirators, technique for (Bryant), 404
Hydatid cyst of right ventricle of heart (Di Bello et al.), 522
Hyperbaric conditions in surgical management of infants with cyanotic congenital heart disease, feasibility of hypothermic perfusion under (Bernhard et al.), 651
Hypertrophic pulmonary osteoarthropathy (Holling et al.), 310
Hypothermia, effect on red cell volumes (Chang and Shoemaker), 117
vascular responses during (Sealy et al.), 795
Implantable synchronous pacer in treatment of complete heart block (Center et al.), 744
Incision, cosmetic, for open-heart surgery (Silver et al.), 197
Infancy, radical operation for ventricular septal defect in (Horiuchi et al.), 180
Infection, pulmonary, by *Nocardia asteroides* (Freese et al.), 537
Infections, mycobacterial, atypical, surgical experience in management of (Law et al.), 689
Inflow occlusion for coronary arteriography (Templeton et al.), 818
Infundibular obstruction, hypertrophic, accompanying valvular pulmonic stenosis, surgical significance of (Gilbert et al.), 457
Intrathoracic meningocele (Weimann et al.), 40
Irradiation, preoperative, follow-up in patients with bronchogenic carcinoma "locally cured" by (Baker et al.), 298

L

L-norepinephrine in extracorporeal circulation, experimental study of (Hohf et al.), 359
Lung, autotransplantation and homotransplantation of (Hardy, Eraslan, and Dalton), 606
canine, studies in pulmonary function in transplantation of (Reemtsma et al.), 589
carcinoma, primary: experience with 1,312 patients (Barrett et al.), 292
disease, chronic, pulmonary collateral circulation in (Viola et al.), 232
right, reimplanted, physiologic alterations of cardiopulmonary function in dogs living one and one-half years on only (Nigro et al.), 598
surfaces cut, sealing with plastic adhesive (Sawyers and Vasko), 526
Lung—Cont'd
surgery, recurrent nerve paralysis following (Baranyai and Madarasz), 531
tuberculous, destroyed, massive plombage thoracoplasty for (Boyd and Strieder), 702
Lymphangiography, evaluation of functional anatomy of thoracic duct by (Pomerantz et al.), 568

M

Malformation, bronchial, and neonatal tension lobar emphysema, chondroectodermal dysplasia with (Moore), 1
Measurement of regional blood flow (Schenk et al.), 50
Membrane, oxygenator, capillary (Bodell et al.), 639
Meningocele, intrathoracic (Wiemann et al.), 40
Menstruation, recurrent spontaneous pneumothorax concomitant with (Mayo), 415
Metastatic malignancy, pleurectomy in treatment of pleural effusion due to (Jensik et al.), 322
Methotrexate, prolonged survival of orthotopic homotransplants of heart in animals treated with (Blumenstock et al.), 616
Mitral insufficiency, traumatic, following transventricular dilatation for mitral stenosis (Björk and Malers), 84
stenosis, traumatic mitral insufficiency following transventricular dilatation for (Björk and Malers), 84
valve, evaluation of two prostheses for total replacement of (Cross et al.), 719
plastic, tricuspid, inverted (Ernst and Stokes), 737
total replacement with prosthetic valves, clinical experience with (Ellis et al.), 482
Monitoring, physiologic, an improved stopcock assembly for (Rivkin and Paley), 11
Mycobacterial infections, atypical, surgical experience in management of (Law et al.), 689
Myocardium, ventricular, normal or ischemic, with saturated or unsaturated blood or colloidal isotonic solutions, effects on cardiac function during direct perfusion of (Petropoulos), 94
Myxoma of left ventricle (Thomas et al.), 220

N

Nerve paralysis, recurrent, following lung surgery (Baranyai and Madarasz), 531

Nocardia asteroides, pulmonary infection by (Freese et al.), 537

Nodule, pulmonary, solitary: report (Steele), 21

O

Obstruction, infundibular, hypertrophic, accompanying valvular pulmonic stenosis, surgical significance of (Gilbert et al.), 457

Occlusion, inflow, for coronary arteriography (Templeton et al.), 818

Open-heart operations, hemorrhage due to fibrinolysis occurring with (Tice et al.), 673

surgery, cosmetic incision for (Silver et al.), 197

Osteoarthropathy, pulmonary, hypertrophic (Holling et al.), 310

Output, cardiac, effect on, of reduction in atrial volume (Trusler et al.), 109

Oxygenator, membrane, capillary (Bodell et al.), 639

rotating-disc, hemodilution studies in extracorporeal circulation with use of (Kahn et al.) 765

P

Pacemaker, P-wave, new, with particular reference to prognosis, management, and: chronic postsurgical complete heart block (Lillehei et al.), 436

synchronous, implantable, in treatment of complete heart block (Center et al.), 744

Palliative treatment of bronchoesophageal fistula (Kovarik), 252

Paralysis, nerve, recurrent, following lung surgery (Baranyai and Madarasz), 531

Perfusion, direct, of normal or ischemic ventricular myocardium with saturated or unsaturated blood or colloidal isotonic solutions, effects on cardiac function during (Petropoulos), 94

with homologous blood, erythrocyte volumes after (Theye and Kirklin), 57

hypothermic, under hyperbaric conditions in surgical management of infants with cyanotic congenital heart disease, feasibility of (Bernhard et al.), 651

Physiologic alterations of cardiopulmonary function in dogs living one and one-half years on only a reimplanted right lung (Nigro et al.), 598

Physiologic—Cont'd

monitoring, improved stopcock assembly for (Rivkin and Paley), 11

Plastic adhesive, sealing cut lung surfaces with (Sawyers and Vasko), 526

use in pulmonary surgery (Wilder et al.), 576

mitral valve, tricuspid, inverted (Ernst and Stokes), 737

Pleural effusion due to metastatic malignancy, pleurectomy in treatment of (Jensik et al.), 322

Pleurectomy in treatment of pleural effusion due to metastatic malignancy (Jensik et al.), 322

Plombage thoracoplasty, massive, for destroyed tuberculous lung (Boyd and Strieder), 702

Pneumothorax, spontaneous (Gobbel), 331

recurrent, concomitant with menstruation (Mayo), 415

Polybrene and renal toxicity (Pate and Lee), 390

Polypoid endobronchial carcinoma with repeated expectoration of tumor components (Kern and Jones), 393

Postperfusion hematocrit (Gadboys and Litwak), 772

Pre-resection radiation for bronchogenic carcinoma (Faber et al.), 227

Presidential address: A surgeon and something more (Johnson), 141

Prostheses, two, for total replacement of mitral valve, evaluation of (Cross et al.), 719

Prosthesis, heart-valve, design and development of cardiac simulator for evaluation of (Starkey et al.), 207

Prosthetic heart valves, sutureless (Magovern and Cromie), 726

reconstruction, total, of aortic valve (McGoon and Moffitt), 162

valves, clinical experience with total mitral valve replacement with (Ellis et al.), 482

Pulmonary collateral circulation in chronic lung disease (Viola et al.), 232

function in transplantation of canine lung (Reemtsma et al.), 589

infection by *Nocardia asteroides* (Freese et al.), 537

nodule, solitary: report (Steele), 21

osteoarthropathy, hypertrophic (Holling et al.), 310

resection, healing of bronchial stump after (Smith et al.), 548

surgery, use of plastic adhesive in (Wilder et al.), 576

Pulmonic stenosis, valvular, surgical significance of hypertrophic infundibular obstruction accompanying (Gilbert et al.), 457

R

Radiation, pre-resection, for bronchogenic carcinoma (Faber et al.), 227
Radical operation for ventricular septal defect in infancy (Horiuchi et al.), 180
Reconstruction, prosthetic, total, of aortic valve (McGoon and Moffitt), 162
Recurrent nerve paralysis following lung surgery (Baranyai and Madarasz), 531
Red cell volumes, effect of hypothermia on (Chang and Shoemaker), 117
Regional blood flow, measurement of (Schenk et al.), 50
Renal shutdown during extracorporeal circulation, acidosis as cause of: its correction by use of THAM (Connolly et al.), 680
  toxicity, Polybrene and (Pate and Lee), 390
Replacement, colon, of esophagus in children (Hopkins and Zwiren), 346
  mitral valve, total, with prosthetic valves, clinical experience with (Ellis et al.), 482
  total, of mitral valve, evaluation of two prostheses for (Cross et al.), 719
Resection, pulmonary, healing of bronchial stump after (Smith et al.), 548
Respirators, mechanical, technique for adequate humidification with (Bryant), 404
Rupture, spontaneous, of esophagus associated with epiphrenic diverticulum (Yeh and Humphries), 271

S

Sealing cut lung surfaces with plastic adhesive (Sawyers and Vasko), 526
Septal defect, atrial, with clinical application, new technique for creation of (Schuster et al.), 510
    enlargement of (Sautter), 386
Shunt, aorta-to-left atrium, in dogs with ligated coronary artery, effect of (Moulopoulos et al.), 408
  intraluminal, use during superior vena cava-pulmonary artery anastomosis (Luna and Wilson), 191
Sino-atrial nodal transplantation for treatment of experimental complete heart block in dogs, failure of (Starzl et al.), 201
Solitary pulmonary nodule: report (Steele), 21
Spontaneous pneumothorax (Gobbel et al.), 331
    recurrent, concomitant with menstruation (Mayo), 415
Stenosis, aortic, acquired, surgical treatment of (Mulder et al.), 468
Stenosis, aortic—Cont'd
    congenital (Pate et al.), 174
  pulmonic, valvular, surgical significance of hypertrophic infundibular obstruction accompanying (Gilbert et al.), 457
Stopcock assembly, improved, for physiologic monitoring (Rivkin and Paley), 11
Subclavian artery, aneurysm of, associated with contiguous pulmonary tuberculosis (Hara and Bransford), 256
Surgeon and something more (Johnson), 141
Sutureless prosthetic heart valves (Magovern and Cromie), 726

T

Tamponade, cardiac, surgical treatment of dissecting aneurysms of aorta with (Rohman et al.), 498
Tetralogy, Fallot's, in infancy, closed pulmonary valvotomy for relief of (Taylor et al.), 77
    surgical treatment of: experience with indirect and direct techniques (Hallman and Cooley), 419
THAM, acidosis cause of renal shutdown during extracorporeal circulation and its correction by (Connolly et al.), 680
Thoracic duct, evaluation of functional anatomy by lymphangiography (Pomerantz et al.), 568
Thoracoplasty, plombage, massive, for destroyed tuberculous lung (Boyd and Strieder), 702
Thoracotomy in patients over age of seventy (Heilbrunn and Hardin), 13
Toxicity, renal, Polybrene and (Pate and Lee), 390
Trachea and bronchus, continuing clinical survey of adenomas of (Wilkins et al.), 279
Transducers, electromagnetic flow, miniature, studies with: coronary blood flow in intact conscious dog (Hepps et al.), 783
Transplantation of canine lung, studies of pulmonary function in (Reemtsma et al.), 589
  sino-atrial node, for treatment of experimental complete heart block, in dogs, failure of (Starzl et al.), 201
Transposition of great vessels, sequential banding and creation of atrial septal defect for (Glotzer et al.), 104

Tuberculosis, pulmonary, contiguous, aneurysm of subclavian artery associated with (Hara and Bransford), 256

V

Valves, heart, technique for study of (Wood et al.), 379
Valvotomy, pulmonary, closed, for relief of Fallot's tetralogy in infancy (Taylor et al.), 77
Vascular responses during hypothermia (Sealy et al.), 795
Ventricle, left, myxoma of (Thomas et al.), 220
right, of heart, hydatid cyst of (Di Bello et al.), 522
Ventricular, aneurysm, right (Stansel et al.), 66
septal defect in infancy, radical operation for (Horiuchi et al.), 180
Volumes, red cell, effect of hypothermia on (Chang and Shoemaker), 117
